RE : biopsy, now lets see how long for treatment.

I write to you because they did the biopsy on 3-14-07 two days from the Deadline you give these people, I wrote this so you can see that if it was not for your court to ask these people to give in explaining the status of the liver biopy by the 3-16-07 I would never have gotten one.

Now lets see if they will help me get the right treatment because of how they have lie before, they already did not care to help me with meds, so all I pray is to make it out alive. I want these people to pay for all they done and are doing to me. I am Youman, Thank you again

God Bless You

David DeJesus Sr

PS. can you Please move me out of this Hell
